

SERIOUS CHARGES MADE BY MARTIN

Declares Corporation Counsels Prepared Anti-Trust Measure.

H. B. Martin, of New York, secretary of the Anti-Trust League, was before the Senate Committee on Judiciary yesterday morning to speak in opposition to the Senate bill for the amendment of the Federal Corporation Act, which would exempt labor unions from those liabilities which were found to attach to them under the Sherman law in the Danbury hatters' decision.

Mr. Gompers declared, not as a threat but as a matter of fact, that unless relief could be found labor would be forced to resort to secret organization in order to protect itself.

Mr. Martin told the committee that he did not want to interfere with early action on the matters presented by Mr. Gompers, but he asked the committee to give him a sitting during the recess of Congress in order that he might present some astounding facts about the origin of the Civic Federation anti-trust measure. He declared that this bill was written by Victor Morawetz, general solicitor of the Santa Fe, and Francis Lynde Stetson, counsel for the Steel Corporation.

He said it was submitted to and approved by E. H. Gray and George W. Perkins, of the steel corporation and various other representatives of big interests long before it was introduced in Congress. Finally, he charged that the big business interests concerned in it agreed, in consideration of the fact that the bill carried a special grant of immunity to them, that they would finance the Republican campaign this year if it should pass.

Those are pretty serious charges to make," said Senator Dawes. "I certainly should be slow to believe anything of the sort about Seth Low." Mr. Martin insisted, nevertheless, that the charges were correct. No action was taken on his application for a special committee meeting.

WOMEN OF SOCIETY TO RACE IN ROME

Program of International Riders Almost Completed by Prince Scalea.

ROME, May 16.—Prince Scalea, the famous horseman, is putting the finishing touches to the program for the international women's races to be held in Rome some time in the fall.

Equestriennes from all over the world will be invited to compete, and the prince has promises from society women in the United States, Italy, Russia, France, Austria, and England to enter the races, riding their own horses as lady jockeys. If not enough society women can be secured, professional riders will be invited, otherwise the latter will be excluded.

The races are to be managed by Emilio Duran, Mascagni's manager, but the Roman Societe Hippique, of which Prince Scalea is president, will decide on the admittance of applicants. The amazons will be invited to compete both in flat races and the steeplechase.

According to Prince Scalea, a rich American residing in Paris has offered a prize of 100,000 francs for the lady winning in the 12,500-foot race. It is reported that James Hazen Hyde made the generous offer. There are to be plenty of other prizes to attract the ladies.

HEBREW QUESTION THREATENS TROUBLE

Duma Has Heated Arguments, But Premier Prefers to Defer Action.

ST. PETERSBURG, May 16.—The Hebrew question before the Russian duma is exciting discussion of a nature so fierce that it is feared that an outbreak will occur. An audience was granted to N. L. Nisnevitch, a Hebrew representative in the duma, by Premier Stolypin today.

The premier and many other men in public life are of the opinion that the political conditions are in such a precarious nature that the question should not be taken up seriously at this time. Premier Stolypin said:

"I consider as premature the introduction during this session of a bill relating to such a complicated question. It would be better to introduce the bill at the next session, and, if the duma should appoint a committee in regard to the betterment of the poor condition of the Hebrews, the government would meet it half way."
